

## Dungeon Squeaker

A puzzle adventure dungeon crawling game with a cute personality.

Imagine Minesweeper as a dungeon crawler except you are a mouse with a sword and the bombs are cats.

## Base mechanics

Most enemies hide in darkness or fog. Use your compass and spellbook to locate them. The **compass** points towards the nearest enemy. The **spellbook** shows the nearest enemy or trap.

Step next to an enemy and it will hurt you. Step onto them to defeat them. Remember to step diagonally!

## Story

Dungeon Squeaker tells the story of an ordinary mouse who finds a magical compass. While napping.

Carefully explore, chase off nasty enemies and discover forgotten treasures!

That's a neat **compass**! Why does it point into that **dark cave** ahead?
